DETAILED ACTION

Claim Objections

Claim 21 is objected to because of the following informalities: in line 1 of (a) the examiner suggests deleting "connected" since it appears redundant;
in line 1 of (g) the examiner suggests deleting "infused" since it appears redundant.

Also numerous claims recite "silicon elastomer". The examiner suggests replacing "silicon" with "silicone" to correct this.

Claim 27 recites "the double barrel catheter: in line 1. The examiner suggests this phrase lacks proper antecedent basis and should be changed to "heat exchange and drainage catheter joined together forming a double barrel catheter" - - - .

In claim 32, in the first line of (b) "efferent" should be changed to "afferent".
Appropriate correction is required.

Allowable Subject Matter

Claims 21-40 are allowed when the above corrections are made.
